

Voices (Skit)

K. Michelle

(talking)

You know me and the voices in my head, we have a lot of things that we always talk about
and some of the things that we talk about

you know, it's like we talk about good weave, we talk about music, we talk about a lot of different things, we
talk about menWe just spend a lot of time, you know what i'm sayin'
and the voices, in my head, their like my best friends

so please don't interrupt this shit that me and these voices got going on right now in this muthafuckin' mix tape
because this is about usThank you
