

# Forgive (feat. Luka Lesson)

Trevor Hall

Sun comin' up on the earth  
Open up strong and we learn  
Never done  
Never do we waver  
Who is the one that we seek?  
Who is the one within we?  
I don't fear  
I don't fear the answer  
I know Hope, it has wings  
I can see it rest with the King  
Let it shine  
Let it shine unbounded  
Out of the mouth comes the water  
Out of the earth came a daughter  
All I hear  
All I hear is to forgive  
Give  
Forgive  
Forgive  
Out of the hands of creator  
I call out Mahadeva  
Lead us in  
Lead us in to patience  
They drew the mist on the ceiling  
Let it rain down for our healing  
I know this  
I know this is ancient  
Well I love you and I mean it  
Hey little child can you feel it?  
Let it come  
Let it come full circle  
Giving up on separation  
Now it's time that we face it  
All I hear  
All I hear is to forgive  
Give  
Forgive  
Forgive
