

Just Kickin' It Like A Wild Donkey

Minus the Bear

Where are we goin'?
This spot seems fine, doing some drinkin'
Bring all the women this time
Bring all the women this time These girls are beautiful and they're with us
These girls can drink well Let's get a good one on, we stumble all night
Drink up till it's gone
Our women keep up all right
Our women keep up all right These girls are beautiful, they're with us
These girls can drink well No one sleeps yet
Let's keep it goin' until the morning
No one sleeps yet
Let's keep it goin' until the morning No one sleeps yet
Let's keep it goin' until the morning
No one sleeps yet
Let's keep it goin' until the morning Let's keep it goin'
