

Do It Deadly

Push Play

Another day
Another mistake
Waiting by the phone for hours
Not one call
Not even a heads up
Excuses that you make are so fake
Never in my life have I met a girl like you
Hopefully I'll never have to
[Chorus:] Yeah girl you played the game but I can keep it lasting
I will keep you begging just say please
Your crying on your knees

Girl you played the game
You played it good
But I control you can't you see your lying through your teeth
Another day
Another game played
Whats your score now too high count
Do whats right
Or you'll get arrested
Everything about you is so infested
Never in my life have I met a girl like you
Hopefully I'll never have to
[Chorus]
