

# And We Run (Evolution Track) [Bonus Track]

## Within Temptation

It burns into your heart  
the darkness that you fear.  
You were never free  
and you never realise  
And love, is a word you've never heard.  
Your heart aint cold cause it burns  
the desire to leave the mind. Take your breath till nothing's left.  
Stars of life upon your chest.  
And I know wherever you go And we run we don't look behind.  
And we run for this killing love  
And we run till they haven't to go  
And we run and we're never done  
And we run till we fall apart  
And we run till they haven't to go Don't blink, you'll miss it.  
Lift up your head  
We gotta get gone.  
Yeah, we outta here.  
Don't blink, you'll miss it.  
Lift up your head.  
Too late, we gone  
Yeah, we outta here. And we run we don't look behind  
And we run for this killing love  
And we run far ahead we go I'm a break these chains  
Ran through the rain.  
Never looked back, never quit  
Worked through the pain.  
This blood in my veins runs cold when I hate.  
Give enough to keep sane but I never lose hope.  
This is my time now, no time for tears  
Celebrate; put it in the air right now.  
Never back down  
you'll never wear my crown  
cause it weighs too much and I crush every motherfucking thing I touch.  
This is love; I've never loved so much.  
Get involved make the world stand up.  
Here my mic before I ever give up  
Name in lights, you lost all my trust.  
Now it's time to face all of us.  
Get in line Just to call at us

And it feels so marvellous  
just take my hand and run. And we run we don't look behind.  
And we run for this killing love  
And we run till they haven't to go  
And we run, and we're never done.  
And we run till we fall apart.  
And we run till they haven't to go Don't blink, you'll miss it.  
Lift up your head  
We gotta get gone.  
Yeah, we outta here.  
Don't blink, you'll miss it.  
Lift up your head.  
Too late, we gone  
Yeah, we outta here. And we run we don't look behind  
And we run for this killing love  
And we run far ahead we go Don't blink, you'll miss it.  
Lift up your head  
We gotta get gone.  
Yeah, we outta here.  
Don't blink, you'll miss it.  
Lift up your head.  
Too late, we gone  
Yeah, we outta here.
