Monkey Panic

Orange Goblin

Don't feed the monkey, don't crack the whip
Monkey's snapping necks like a forest fire
That's snapping sticksDon't fail to poison, don't fail to kill
Monkey breaks those chains tonight
You better head out for the hillsNow it's time for you to run
Got the fear, so get your gun
Drink your whiskey, drink your wine
Take your pills and come insideDon't feed the monkey, don't turn him red
Violent retribution in the city of the deadBorn to chaos, born to kill
Lust for blood and thunder
On that one way road to hellNow it's time for you to run
Got the fear, so get your gun
Drink your whiskey, drink your wine
Take your pills and come insideChaos falling all around
Monkey tearing up the town
People running for their lives
Armageddon's here tonightDon't feed the monkey, just feel the pain
Feel the mutilation of the monkey hurricaneDon't fail to poison, don't fail to kill
Monkey breaks those chains tonight
You better head out for the hillsNow it's time for you to run
Got the fear, so get your gun
Drink your whiskey, drink your wine
Take your pills and come insideChaos falling all around
Monkey tearing up the town
People running for their lives
Armageddon's here tonight
