## Let the Fight Do the Fighting

## **Nada Surf**

Hard cover books and silver frames Because they're gone we drink your parents' bar Three am not many cars We go walking down the avenue doing anything that makes us laugh Do it but it's a stupid thing to do I won't argue let the fight do the fighting let the right do the righting now I can't have you even as an enemy not everything is allowed You're gonna wish that it was done You're gonna wish that you were young again You're gonna wish that is was fun You're gonna want to have someone again see what lands we have become flight on the horizons everyday I won't argue let the fight do the fighting let the right do the righting now I can't have you even as an enemy not everything is allowedI won't argue let the fight do the fighting let the right do the righting now I can't have you even as an enemy not everything is allowed I won't argue let the fight do the fighting let the right do the righting now I can't have you even as an enemy not everything is allowed
