Love Blues

Keb' Mo'

I love the way you love me
An' I love the way you comb your hair
An' I love the way you love me baby
Love the way you comb your hair
If it was left up to me babe
You would never get to go nowhereHey sweet mama
Baby don't you go too far
Hey sweet mama
Baby don't you go too far
I wanna know where you is every minute
Who you're with and where you areI love you baby so please don't you leave me here all alone
I can't stand it baby when you leave me here all alone
So wherever you decide to go baby
Just so don't stay gone too long
UmmLove you baby
I just can't leave you alone
You know I love you baby an' I just can't leave you alone
I love you baby jus' like a
Jus' like a dog loves a boneI'm gonna wrap my arms around you
Squeeze you 'til I cry
I'm gon' wrap my arms around you
Squeeze you 'til I cry, yes I am
Girl I'm gon' keep on lovin' you baby
'Til the day I die
That's gonna be a long time
