

Moose Song

Big Head Todd And The Monsters

I have seen babe, I haven't heard
Did someone put you down?
Was your lover just another scheme?
Never did work out When it hurts, when it hurts inside
Why can't you see it's only you he's thinking of?
Whoever told you it was your right to be alive
If your heart is breaking, you're lucky to be in love You keep claiming that you paid too high a price
You want something for your own
So worried about the little change he puts into your pocket
Can't see that he's dead and gone When it hurts, when it hurts inside
Why can't you see it's only you he's thinking of?
Whoever told you it was your right to be alive
If your heart is breaking, you're lucky to be in love Babe, get into your car
Turn and turn and turn around
Yeah, the road, it ain't inside you
Need some help to get you there When it hurts, when it hurts inside
Why can't you see it's only you he's thinking of?
Whoever told you it was your right to be alive
If your heart is breaking, you are lucky to be in love When it hurts, when it hurts inside
Why can't you see it's only you he's thinking of?
Whoever told you it was your right to be alive
If your heart is aching, baby, you are just lucky to be in love
