Nehemiah

Hope of the States

Nehemiah, last survivor in this cynical world Sparks come from anywhere, it's the fire that matters Nehemiah, you are the leader, we all just follow Sparks come from anywhere, it's the fire that matters Hear us singing, we sing yeah yeah yeah yeah No self pity, we sing yeah yeah yeah Friendly fire, burn the liars, don't feel like your alone Let them all hide behind their flags and old lies Nehemiah, sing to the stone, make it turn around It's all decided before you're bornHear us singing, we sing yeah yeah yeah No self pity, we sing yeah yeah yeah yeah People come on, make a stand Come on people try again You're not alone when the lights go off Stand together when it all stopsEvery little second we sing, yeah, yeah, yeah, yeah No self pity, we sing yeah yeah yeah yeah weah...People come on, make a stand Come on people try again You're not alone when the lights go off Stand together when it all stops
