One Step

Billingsgate

Never again
All my life it's been much the same game
All together now who pass the blame game
I'm not the one so don't put your shame on
You're not the one that I put the blame on
There is nothin' I would rather do then
Get up and explain life to you friend
There is nothin' I would rather do then
Get up and explain life to you
One step forward
Two steps back
Three steps forward
(Go)
One step forward
Two steps back
Three steps forward
(Go)
People want to come and take from me everythin'
People want to come and leave me with nothin'
I'm not the one so don't put your shame on
You're not the one that I put the blame on
There is nothin' I would rather do then
Get up and explain life to you friend
There is nothin' I would rather do then
Get the fuck up and explain life to you
One step forward
Two steps back
Three steps forward
(Go)
One step forward
Two steps back
Three steps forward
(Go)
One step forward
Two steps back
Three steps forward
(Go)
One step forward
Two steps back

Three steps forward
(Go)
Why do you hide
So afraid of what you'll leave behind
Why do you hide
So afraid of what you'll leave behind
Why do you hide
So afraid of what you'll leave behind
Why do you hide
So afraid of what you'll leave behind
Why do you hide
So afraid of what you'll leave behind
One step forward
Two steps back
Three steps forward
(Go)
One step forward
Two steps back
Three steps forward
(Go)
One step forward
Two steps back
Three steps forward
(Go)
One step forward
Two steps back
Three steps forward
(Go)
One step forward
Two steps back
Three steps forward
(Go)
One step forward
Two steps back
Three steps forward
(Go)
One step forward
Two steps back
Three steps forward
(Go)
One step forward
Two steps back
Three steps forward
(Go go)
One step forward
Two steps back
Three steps forward
(Go go)
Who put the blame on

Who put the blame on
Who put the blame on
(It wasn't my fault)
Who put the blame on
(It wasn't my fault)
Who put the blame on
(It wasn't my fault)
Who put the blame on
(It wasn't my fault)
It wasn't my fault
