

Ride

Trace Adkins

Alright
Take a trip from here Bogalusa, Baton Rouge
New Orleans, Picayune
Boloxi, Pascagoula
Mobile Bay, big full moon Diesel up just north of Destin
Headed cross to Jacksonville
Love to see the world come at me
Through the bugs on a big windshield
Yeah, that's right Tear it down in Raleigh-Durham
Haven't got an hour to lose
Head up to the coast to Virginia
Read the newest Newport News Back across the Appalachians
Blowin' into Louisville
Love to feel the big wheels turnin'
Always have and always will Somewhere inside me there's a new direction
Somewhere before me there's an open road
Can't go to sleep without that diesel singin'
And somebody tellin' me "It's time to go" Let's ride
Come on boys, let's ride
Come on boys, let's ride Little Rock, Texarkana
Dallas, Fort-Worth and El Paso
110 in the desert
Pedal down, go dog go Always love to see the people
Always love to hear the crowd
Always love to bring a party
Turn it up and play it loud Somewhere inside me there's a new direction
Somewhere before me there's an open road
Can't go to sleep without that diesel singin'
And somebody tellin' me, "It's time to go" Let's ride
Come on boys, let's ride Let's ride like the wind, but I'll be back again
As sure as this world's spins around
And one day I might find a reason
To shut this thing down
But for now let's ride
Oh, no Somewhere inside me there's a new direction
Somewhere before me there's an open road
Can't go to sleep without that diesel singin'
And somebody tellin' me, tell me, "It's time to go" Let's ride
Come on boys, let's ride

Come on boys, let's ride
Yeah, let's rideLet's ride
