

# Hungry for the Power

## Azari & III

I'm hungry for the power

I'm hungry

I'm hungry for the power

I'm hungry

I'm hungry for the power

I'm hungry

I'm hungry for the power

I'm hungry

I'm hungry for the power

Hungry for the power

I'm hungry for the power

Hour after hour

I'm hungry for the power

Hungry for the power

Crazy for your love

Love is not enough

I'm hungry for the power

Hour after hour

Crazy for your love

But love is not enough

I'm hungry for the power

Hour after hour

Crazy for your love

But love is not enough

You play me day and night

?, the thoughts in your head

You play me day and night

On and on, the game just goes on

You play me day and night

And on and on, on and on

You play me day and night

Like you said?, just thoughts in your head

Hungry for the power

Excess on the brain

It's no wonder that I crave it

Or wonder that I'm sane

Just one push of the button  
A taste of desire  
Just trust it, a fuck for the higher?

Hungry for the power  
Hour after hour  
Crazy for your love  
Love is not enough  
Hungry for the power  
Hour after hour  
Crazy for your love  
Never is enough  
Hungry for the power  
Hour after hour  
Crazy for your love  
Never is enough

Hour after hour  
Seeding through the night  
Open to your darkness  
Hiding from the light  
I'm burning for your passion  
Hold tight to your boys  
Looking deep inside you  
Going going gone

Hungry for the power  
I'm hungry for the power  
Hour after hour  
Crazy for your love

You play me day and night  
?, the thoughts in your head  
You play me day and night  
On and on, the game just goes on  
You play me day and night  
And on and on, on and on  
You play me day and night  
Like you said?, just thoughts in your head

You said your hungry for the power  
And you crazy for your love  
Hungry for the power  
Your crazy for my love  
Your hungry for the power

The power
