

Walk Away

James Gang

Takin' my time, choosin' my line
Tryin' to decide what to do
Looks like my stop, don't wanna get off
Got myself hung up on you Seems to me
You don't want to talk about it
Seems to me
You just turn your pretty head and walk away Places I've known, things that I'm growin'
Don't taste the same without you
I got myself in the worst mess I've been
And I find myself startin' to doubt you Seems to me
We talk all night, here comes the morning
Seems to me
You just forget what we said and greet the day Seems to me
You don't wanna talk about it
Seems to me
You just turn your pretty head and walk away I've got to cool myself down, stompin' around
Thinking some words I can't name ya
Meet you halfway, I got nothin' to say
Still I don't 'spose I can blame ya Seems to me
You don't wanna talk about it
Seems to me
You just turn your pretty head and walk away
Walk away
