

# Stay

Gavin Degraw

You don't have to be part of the problem  
I just need a second chance, I just need a second chance  
Instead of leaving me standing in sorrow  
I know that you'll understand and hope then you'll understand  
I know that I was wrong but just don't walk away  
Oh, won't you stay? I need you, need you here  
When you're with me all others disappear  
I'll follow close, so close I'll almost touch  
I need your love but it never hurt this much  
I don't wanna be someone who's searching  
Finally met someone, I finally met someone  
There's a couple things I'm still learning  
Just gotta figure out but you need someone who knows  
I came to you tonight but now you're just walking away  
Oh, won't you stay? I need you, need you here  
When you're with me all others disappear  
I'll follow close, so close I'll almost touch  
I need your love but it never hurt this much  
Don't get caught up in mid feeling off course of day  
You can take a minute 'fore you go slipping away  
I know I took some time but I realized my mistake  
You don't have to be part of the problem  
I just need a second chance  
Oh, won't you stay? I need you, need you here  
When you're with me all others disappear  
I'll follow close, so close I'll almost touch  
I need your love but it never hurt this much  
I need your lovin' arms at night, but it never hurt this much  
You don't have to be part of the problem  
I just need a second chance
