

# Put It Back Together

Diana Vickers

If you think you're sinking  
You probably are  
Only you can know  
Only you can know If you think you're falling  
You probably will  
You've got to lose yourself  
But not let go I think we'll be alright  
I think we will survive  
Everybody gets a little scared  
Like this sometimes I think we'll be alright  
I think we will survive  
You've got to fall apart  
And put it back together again I never said I loved you quite enough  
I hope it's not too late  
I hope it's not too late I've got this one fresh second  
One fresh minute  
One fresh hour of my day  
To hope it's not too late  
I hope it's not too late I think we'll be alright  
I think we will survive  
Everybody gets a little scared  
Only sometimes I think we'll be alright  
I think we will survive  
You've got to fall apart  
And put it right back together again  
You've got to fall apart  
And put it right back together again I going to tell you I love you  
One more time  
Again and again  
Again and again I've got this one fresh second  
One fresh minute  
One fresh hour of my day  
To pray it's not too late  
I hope it's not too late I think we'll be alright  
I think we will survive  
Everybody gets a little scared  
Like this sometimes I think we'll be alright  
I think we will survive  
You've got to fall apart

And put it right back together again  
You've got to fall apart  
And put it right back together again You've got to fall apart  
And put it back together again
