

# Stick to Your Guns

## Dokken

(dokken) Well I've been trying this for so very long  
To make you understand  
If you'll fight for what you need  
Don't come crawling over to me I'm not the kind of person who quits  
Even when the chips are down  
You gotta fight for what you want  
Don't give up  
Stick to your guns You gotta fight for what you want  
Gotta believe in what you do  
You gotta fight for what you want  
Don't give up  
Stick to your guns Stick to your guns  
Stick to your guns A hard time you've been having  
Don't feel bad if you're on your own  
If you fight for what you want  
Things ain't gonna turn out so bad You gotta fight for what you want  
Gotta believe in what you do  
You gotta fight for what you want  
Don't give up  
Stick to your guns Stick to your guns  
You gotta stick to your guns Well, I'll tell you  
You gotta fight for what you want  
Gotta believe in what you do  
You gotta fight for what you want  
Don't give up  
Stick to your guns Stick to your guns  
You gotta stick to your guns  
I gotta tell you  
Stick to your guns  
Don't give up  
Stick to your guns  
You got to stick to your  
You got to stick to your  
You got to stick to your guns
