

Never Cared Before

Nonpoint

What's the point in talking about this?
I don't believe a single word coming out of that dirty little hole you use to eat with.
What's the point of fighting for any of this?
When I can't believe a single word coming out of that dirty little hole you use to eat with. I don't wanna talk
about it (I don't wanna talk about it)
And I don't wanna think about it (And I don't wanna think about it)
I just wanna let you go. Cause if we stay and talk about it (If we stay and talk about it)
And I get to say how I feel about it (I'll tell you how I feel about it) You're gonna cry and I won't care cause you
never cared before.
You never cared before. (x3) I never remember giving anybody permission to breathe let alone interrupting me
I don't remember telling you that I was always not something and tackle me to show me what I mean
I hope you step in front of a bus and lose your luck
And fall
And everybody looks
From where you were
And that's what you deserve not another chance to fuck me
To interrupt me. I don't wanna talk about it (I don't wanna talk about it)
And I don't wanna think about it (And I don't wanna think about it)
I just wanna let you go. Cause if we stay and talk about it (If we stay and talk about it)
And I get to say how I feel about it (I'll tell you how I feel about it) You're gonna cry and I won't care cause you
never cared before.
You never cared before. (x3) How do you explain yourself after what you became Stand and claim your prize
you've been waiting to claim. Know your place in this game. Claim your prize your prize you've been waiting to
claim. Stand and claim your prize you've been waiting to claim. Know your place in this game. You never cared
before
You're gonna cry and I won't care cause you never cared before. (x2)
