

# Love Never Dies (Back For The First Time)

## Mr Hudson

I still hear you,  
I still see you  
When I close my eyes  
I could still feel you  
And I still want you,  
Love never dies  
Love...love...love never dies  
Love...love...love never diesWe must have sat upon an old bench  
For ten long summers  
First it was weed, girls and football,  
Then it was greed and birds and alcohol  
I won't forget the night that  
We just couldn't make you listen  
You thought you were always right  
But you were so, so wrong you were so headstrong,  
And now you're goneBut I still hear you  
I still feel you  
When I close my eyes,  
I still need you  
And we still want you,  
You see, love never dies  
Love...love...love never dies  
Love...love...love never diesYour motorbike is resting  
Abandoned by the playground  
Because it was throwing rocks and climbing trees now it's pushing rocks and transfer fees
