Love Glove

Fielfraz

I know if the ground might end up
empty & bare, what can you care?
you say you can paint wild flowers
on the clothes that you wear, that you wear

So I say
put on your love glove
hand a rope around the world
put on your love glove
hand a rope around the world

I know if disease catch up and
rip off your hair, what do you care?
you say you can paint wild flowers
on the clothes that you wear, that you wear

So I say
put on your love glove
hand a rope around the world
put on your love glove
hand a rope around the world

and if something comes between
I'll call you when the wall breaks down

So I say
put on your love glove
â€¦
