

# Tic Toc

## Wild Orchid

Sometimes when two people meet  
You know that undeniably  
There can be an instant chemistry Do you feel the magic here with me  
Ohh, let's not wait  
No need to hesitate  
Better find out before it's too late Tic toc look at the clock  
Love is just a moment away  
Don't stop, make my world rock  
Come closer don't make me wait  
Tic toc the doors are all locked  
Love is just a moment away Never gonna stop  
Gonna make you rock  
To the rhythm of the Tic Toc Longing for those sleepless nights  
Sunday morning, lazy days and candlelight  
The anticipation drives me wild  
Fantasies they just won't leave my mind Ohh let's not wait  
Destiny said this is fate  
Just imagine what we could create, we could create Tic toc look at the clock  
Love is just a moment away  
Don't stop, make my world rock  
Come closer don't make me wait  
Tic toc the doors are all locked  
Love is just a moment away All night long  
Never gonna stop  
Gonna make you rock  
To the rhythm of the Tic Toc  
Feel the rhythm of the Tic Toc  
Just hold on Take it nice and slow  
Wanna make it flow  
Like the rivers and the oceans go  
Feel the current deep down below, we'll be free It's a mystery  
Wondering what will be  
Fortune tellers are telling me  
In the crystal ball they can see  
You and me Ohh, time keeps ticking away  
It goes by so fast  
Let's live in the moment, let's make this love last  
Tic toc look at the clock  
Love is just a moment away

Don't stop, make my world rock  
Come closer don't make me wait  
Tic toc the doors are all locked  
Love is just a moment away
