

Deeper

Holy Moses

Inside of me, I love to be
I'm ready now, so show me how
Don't marry me, be wild and free
You're thrilling me, it's for you and me I like to tell, pass not away
Behind the wall, you wonder why
You feel it too, so let us do
It's hard for me, I learn to see I like to leave the world outside
Because all the words I wrote
Will not fit to my voice
Telling it to you But it's the last thing I can do
When I see you passing away
This holy fire is going
Deeper, deeper in my soul I never thought before
Deeper, deeper in my soul
Deeper, deeper, deeper, deeper in my soul I never thought before
Deeper, deeper in my soul
What must I do? How can I change my mind?
Because I wanna make it right this time
It doesn't matter much for you
I am lost in confusion I have to grasp new illusions
And I'm tired of losing
Words like that never crossed my way
But you know, feelings can learn to die I like to leave the world outside
Because all the words I wrote
Will not fit to my voice
Telling it to you But it's the last thing I can do
When I see you passing away
This holy fire is going
Deeper, deeper in my soul I never thought before
Deeper, deeper in my soul
Deeper, deeper, deeper, deeper in my soul
I never thought before
Deeper, deeper in my soul Alone in a sea of agony
That will be a lonely way to be
I don't like to make it hard for me
Time will tell our way to stay
