

I Think of You

Ivy

I think of you
Whenever I'm alone, whenever I get lonely
I think of you
Wherever you may go I know that you are only one dream away
So don't give up baby, don't give in
If we try, we can begin again
I know what we've been through
But I still think of you I think of you
Whenever I get down, whenever I get dreary
I think of you
When you're not around I wonder if you hear me
Call out your name
So don't give up baby, don't give in
If we try, we can begin again
I know what we've been through
But I still think of you I think of you
Whenever I'm alone, whenever I get lonely
I think of you
Whenever I get down, whenever I get weary I think of you
Whenever I'm alone, whenever I get lonely
I think of you
