Hanging Onto Every Heartbeat

Cut Copy

Years that talk and years that fought down
Years that give and years that take away
A substitute, the business suit, I'll trade you
A little space to clear a place in my day
Hanging onto to every heartbeat
Satellites in the sky
Watching up where the stars meet
And you'll be fine
The government, heaven sent in our heads
This owing scent and our hands embrace
The brother lights on our old lives, we're watching
But if you're watching, who's that living there?
Hanging onto to every heartbeat
Satellites in the sky
Watching up where the stars meet
And you'll be fine
Hanging onto to every heartbeat
Satellites in the sky
Watching up where the stars meet
And you'll be fine
Heartbeats in the sky
Feel my post, electric eye
In our image by the frame
Here we are, oh, here we are
We're gonna drift away
So you might never see the light of day
We're gonna drift away
So you might never see the light of day
We're gonna drift away
So you might never see the light of day
We're gonna drift away
So you might never see the light of day
Hanging onto to every heartbeat
Satellites in the sky
Watching up where the stars meet
And you'll be fine, and you'll be fine
And you'll be fine, and you'll be fine
Hanging onto to every heartbeat
Satellites in the sky

Watching up where the stars meet
And you'll be fine
Hanging onto to every heartbeat
Satellites in the sky
Watching up where the stars meet
And you'll be fine
