

# Wasps

## Mana ERG

Father, how long since you have gone  
Father, this house is not our home anymore  
Its in the hands of a bunch of sick dogs  
The walls infested with flies and rats are running around  
The floor is covered with slime and bats are flying around  
Its in the hands of a bunch of deranged criminals  
The wasps are chasing me all over the place  
Maybe I can escape, maybe I can escape  
I hope youll die soon like a dog in the street  
I hope youll drown soon in an ocean of filth  
Wherever you may run, may you never find peace  
Wherever you may hide, I will be your disease  
I want to burn all the books that you wrote to make you look right  
I hate your future destiny because you stole mine  
I hate the smell of your fake smiles  
I hate the sound of your new shoes  
and all the things that you touch with your rotten hands  
and all the things that you said with your poison tongues  
wasps are buzzing all ovre the place  
wasps are buzzing in my head
