

Just Us

[Ann Derie](#)

Just sitting here thinking bout us and the
Way you kiss me any given little touch you just
Make me feel like I'm the only one you want and I
Can't imagine life if there was no more us because
The way you make me feel is so unreal
Just us together no one else exists
When you kiss me on my neck all I do is shiver
When we make love you have me streaming like a river

You're the only one I know who can for sure deliver
You got the key to my heart so go on and enter we
Been down so long going strong
And I just want the world to know... Just us
You got the word I know you still remember
Just us

And I'm the one for you because you said it

Just us

Because you bring out the best of me

Just us

Because our love will last eternally

Just us

Just us

Just us

Just us

Just us

Just us

You got the word I know you still remember

Just us

And I'm the one for you because you said it

Just us

Because you bring out the best of me

Just us

Because our love will last eternally

Just us

Just us

Just us

Just us

Just us

Usually I don't do this but you got me so in tune with
Your mind body and soul
The way you taking control
I just can't imagine life without you don't know what to do
Cuz the sex amazing
Got my body craving
Think I'm going crazy ooh ooh
The promises that you made have come true
And that's why I'm so in love with you
There is no one else that I would choose
Just us
Just me and you
Just us
You got the word I know you still remember
Just us
And I'm the one for you because you said it
Just us
Because you ain't got the best of me
Just us
Because our love will last eternally
Just us
Just us
Just us
Just us
Just us
Just us
You got the word I know you still remember
Just us
And I'm the one for you because you said it
Just us
Because you bring out the best of me
Just us
Because our love will last eternally
Just us
Just us
Just us
Just us
Just us
I want the world to know
I want the world to know
These feelings I have for sure
These feelings I have for sure
I want the world to see
I want the world to see
That it's just you and me

Just you and me
That's just you and me
I want the world to know
I want the world to know
These feelings I have for sure
These feelings I have for sure
I want the world to see
I want the world to see
That it's just you and me
Just you and me
That's just you and me
I want the world to know
I want the world to know
These feelings I have for sure
These feelings I have for sure
I want the world to see
I want the world to see
That it's just you and me
Just you and me
Ooh ooh ooh oooooh ooh
Just sitting here thinking bout us and the
Way you kiss me any given little touch you just
Make me feel like I'm the only one you want and I
Can't imagine life if there was no more us because...
