

# Battering Ram

## Black Label Society

Through your fear I am reborn  
My hand of grief can't be ignored You know my name, yeah you know who I am  
Frustrated turmoil again and again  
I am the spike which drives through your hand  
For I am eternal, battering ram I'd kill myself to see you die  
As you suffer, tears of joy come to my eyes You know my name, yeah you know who I am  
Frustrated turmoil again and again  
I am the spike which drives through your hand  
For I am eternal, battering ram You know my name, yeah you know who I am  
Frustrated turmoil again and again  
I am the spike which drives through your hand  
For I am eternal, battering ram You know my name, yeah you know who I am  
Frustrated turmoil again and again  
I am the spike which drives through your hand  
For I am eternal, battering ram You know my name, yeah you know who I am  
Frustrated turmoil again and again  
I am the spike which drives through your hand  
For I am eternal, battering ram
