

Good Day (feat. DJ Snake & Elliphant)

Yellow Claw

You make me feel like all those kids that
Were supposed to stay the night but
Changed their mind and called their mommy
You are not me, I am dirty
You make me feel like all those kids that
Were supposed to stay the night but
Changed their mind and called their mommy
You are not me Remember that day, we met for coffee and you were late
Yeah, we chatted about you and you mostly but a bit about me
And then we went back to yours and I never been there before
On the blue line subway
Yeah, I think it was raining, yeah, you made me a painting
Sing a song about dolphins, young love, was calling
It was a good day
Oh, what a good day
But it is long gone now
When all the stars fell down
It was a good day
Oh, what a good day
That day you broke my heart
I loved you way too hard
Now I'm free Remember so well, that time when I found a dog
I thought you'd be cool, not cool at all when you opened the door (come on)
You said I was your soulmate and I was there on my way
On the blue line subway
And I think it was snowing 'cause the city was glowing
Yeah, I started to notice, young love, was broken
It was a good day
Oh, what a good day
But it is long gone now
When all the stars fell down
It was a good day
Oh, what a good day
That day you broke my heart
I loved you way too hard
Now I'm free Free, free, free falling
