Rape This Day

Tomahawk

You're the only one I ever told
That I will rape this day
Got a barking dog
And a smile to tell
And I will hate this day
Sporting the name brands
Clothes make the man
And I will rape this day
Guess a heart won't break
That ain't pumping cool-aid
I got a fighting chance
You know you promised me the last dance
A micro naught in time
This fat twenty-four is all mine
Nothing but moans and blood
And so my blood counts my loss
You cannot eat just one
A diaphragm revelation
Just want to get some disease
And get your stamping heart the hell outta here

I'm gonna rape this day, I'm gonna rape this day
I'm gonna rape this day, rape this day
This is your real mouth
Sew it up and fly south
And I will rape this day
I'll blow with you on the ground
Or leave it 'til the leaves turn brown
And I will pinch and tear
And pull and kick you right there
I'll prod and jerk and stretch
Into a pretty bruise, a cat scratch
Put a rake on your neck
But who would cry or complain?
Compared to the pain
Of your sorry white vein
I'm gonna rape this day
I'm gonna rape this day
I'm gonna rape this day

I'm gonna rape this day
