

# Fall Children

[AFI](#)

As the cries start to penetrate  
Still air  
This day we celebrate  
The wait now ends From four corners smoke plumes into a reddened sky  
(Woah oh, woah oh)  
In the face of lantern light, tonight, my destiny flies  
(Woah oh, woah oh)  
Oh oh This day so hallowed  
This day so hallowed  
From here to forever, its will I will follow  
This day so hallowed  
This day so hallowed  
Tonight will come to life Deadened branches stirred by whispers in the wind  
(Woah oh, woah oh)  
Fall children fill the streets at dusk, at last, it all will begin  
(Woah oh, woah oh)  
Oh oh This day so hallowed  
This day so hallowed  
From here to forever, its will I will follow  
This day so hallowed  
This day so hallowed  
Tonight will come to life Oh oh oh  
Oh, hallowed, hallowed, hallowed  
Hallowed, hallowed, yeah Fall children This day so hallowed  
This day so hallowed  
From here to forever, its will I will follow  
This day so hallowed  
This day so hallowed  
Tonight will come to life  
(Woah, oh oh oh)  
To life  
(Woah oh oh)
