Jennifer She Said

Lloyd Cole

Jennifer we can't go wrong let's put it in writing
Jennifer we can't go wrong let's do it right now
Maybe you were a little hasty
But they say love is blind
Now her name on you
Jennifer in blue
Did you ever have a bad dream wake up and it not stop?
Did you ever feel for a girl for a time and then stop?
Well it's written there in blue
With a heart and arrow through
Her name on you
Jennifer in blue
And forever you said that's forever you said yes forever
And forever she said that's forever she said yes forever
But you change with the weather
You change with the weather
And this is the rain
