

Secret Love

Bee Gees

When do I cry
This breakin' heart
Just hurts me more
When we're apart
And there are two of us
With our secret love Sleep pretty baby while you wait so long
Livin' with a love that's not just make believe
Lonely nights, I see your candle glow
And in my mind, I trace
Together we can take away
The time and the space Baby, when you got a secret love
Every little touch is not enough
Every little moment we're apart is pain to me
Maybe we can find some hideaway
Everybody knows but who can say
Secretly you know I'd follow
Anywhere to make you happy Anyway you want me I'll be standin' by
I don't wanna lose the one I hunger for
Naked eyes, they watch us everywhere
Nowhere to run, I cry
Everything to lose and no alibi Baby, when you got a secret love
Nothin' you can do but rise above
Secretly you know I'd follow
Anywhere to make you happy There's no goodbye
This breakin' heart
Just hurts me more
When we're apart
And there are two of us
With our secret love
(Together we can take away the time and the space) Baby, when you got a secret love
Nothin' you can do but rise above
Every little moment we're apart is pain to me
Maybe we can find some hideaway
Everybody knows but who can say
Secretly you know I'd follow
(Follow, follow, follow secret love) Baby, when you got a secret love
Every little touch is not enough
Every little moment we're apart is pain to me
Maybe we can find some hideaway

Everybody knows but who can say
Secretly you know I'd follow
