

# You & I (feat. Rachel Haden)

## Fightstar

You and I  
Will never make it out of here  
AlivePlease just let us go insane  
We're travelling where spiders lay eggs  
With our heads above the waste  
The water broke our fallYou and I  
Will never make it out of here  
AliveYou and I  
Will never make it out of here  
AliveI can't carry on for long  
I'll start to feel the pain again  
Now the days are all the same  
Losing sight and hold of homeYou and I  
Will never make it out of here  
AliveCause there will come  
A day when you silence  
The crowdsAnd you and I  
Will never make it out of here  
AliveIt feels as black as the thoughts I had  
When the road was as dark as my fears  
And just take comfort in knowing that  
All of this ends when I am donePlease just let us go insane  
There's nothing to declare but oursYou and I  
Will never make it out of here  
AliveCause there will come  
A day when you silence  
The crowdsBecause you and I  
Will never make it out of here  
Alive
