Black ray bans Dan Akroyd
if you get the benz she have to part
first i bought the crib then a lot of part
when you call me evil dawg you had a poiint
can't compare us different categories
taught him at the candle lite the bitch was litin candles for him
dan your partners dey knew all the stand up for em
watch the way your talking to me bitch know i can't stand the tone

got away with that one no one know who did it
molly in the rose won't know till you hit it
who you gonna call bitch go ahead get em
she got two baby daddys i met both of them in prison
feel like Bobby Blake cookin dope up in the kitchen
blow it off your face stick your nose up in my business
50-50 on it you ain't spoke an i ain't listen used to hate each other's guts
i got both these hoes kissin
bout to roll all this weed up in the back
i got my respect before success i want it back
presidential rollie bezel love ill got your back
they didn't even think it was me cause i can act
better watch the way you talkin when you speak on the bros
we can't trust you not to tell that's why we speaking in code
i had nowhere else to go got used to sleeping on floors
all the rocks up in my palm that shit just swept thru my pores
ain't no cable in the trap just dvds in it tho

Fresh up out the pen , were putting the band back together
you gonna need some glue to put your man back together

i shouldnâ€™t argue he won't take the stand under pressure
not at all he cant hit my line if its a not involved
i got so much beef i keep it whippin in a shopping mall
what's the ticket on it i might need to come shop with yall
got your baby movin kick that shit like a soccer ball
diamonds in my cuban black an yellow like the Wizard
they keep talking about what they gonna do but they ainâ€™t dissin
we got boys a snitch but that aint why he got his wig split
postin in a trap talkin shit doing arithmetic
lazy haters chase for the shots did if they say what happen to him we gonna play shocked bitch had a solid line
til i lined his ass up now i'm looking for somebody new to shop with
