

Song for You

Nana Mouskouri

Eyes that warm my heart just like the sun
In them I can see a million days to come
There beneath the sky
Besides the one who brings me happiness
How can I express? This is the sound of my heart
Whispering softly in the dark
Words that are simple and true
This is my song for you Love is the music I find
In every breath, every sigh
One precious gift shared by two
This is my song for you Hold me close, I need to feel you near
Oh, you are the joy inside of every tear
And I've always known
That words alone could never quite reveal
This love I feel This is the sound of my heart
Whispering softly in the dark
Words that are simple and true
This is my song for you Love is the music I find
In every breath, every sigh
One precious gift shared by two
This is my song for you Love will rhyme the rhythm
Time will turn the page
I will see forever
Every time I see your face This is the sound of my heart
Whispering softly in the dark
Words that are simple and true
This is my song for you Love is the music I find
In every breath, every sigh
One precious gift shared by two
This is my song for you Ooh, this is my song for you
