

# Love It Is Love

Sophie Ellis Bextor

I can't believe it's happened to me  
Taken over so completely  
I was content but nevertheless  
You've changed my life for the best  
I want to hold you 'til I lose time  
I never want to be back in my mind  
The way that I'm feeling  
Love it is love  
Keep on with the feeling  
Love it is love  
Begins without thinking  
Be friends with a touch  
Keep on with the feeling  
Love it is love  
Love it is love  
Love it is love  
So all a sudden stupid makes sense  
I succumb and I've no defense  
You make me happy inside I dance  
Never stopping, fuel is a glance  
I've fallen deeper and I am the girl  
I used to want to be you spin my world  
Onward motion, pure devotion  
Onward motion, pure devotion  
The way that I'm feeling  
Love it is love  
Keep on with the feeling  
Love it is love  
Begins without thinking  
Be friends with a touch  
Keep on with the feeling  
Love it is love  
Love it is love  
Love it is love  
I thought I knew my heart was lone and stark  
But baby, oh  
You've moved within me, never go  
Never go, never go, never go  
The way that I'm feeling

Love it is love  
Keep on with the feeling  
Love it is love  
Begins without thinking  
Be friends with a touch  
Keep on with the feeling  
Love it is love  
The way that I'm feeling  
Love it is love  
Keep on with the feeling  
Love it is love  
Begins without thinking  
Be friends with a touch  
Keep on with the feeling  
Love it is love  
Love it is love, it is love, it is love  
Love it is love  
Love it is love, it is love, it is love  
Love it is love
