Masquerade

Jasmine Villegas

Hip shaker, dream maker Heart breaker, earthquaker I could be anything that you want me to Coin spender, mind bender Jet setter, go getter Changing my getup for anything you choose I don't mind trying on someone else I won't mind seeing just how it felt I might like changing my disguise To make you happy Here's my formal invitation You and me go masquerading Lose ourselves in this charading Is this love we're imitating? Do we want what we got If not I say so what Here's my formal invitation La, la, la, you can be my School teacher, mind reader Dream weaver, just be the one I can count on to play it out with me Hot waiter, cool skater Trailblazer, pulse raiser Naughty or nice whatever you want to be You wanna try on someone else You might like seeing how it felt Do you mind changing your disguise? If it makes me happy Here's my formal invitation You and me go masquerading Lose ourselves in this charading Is this love we're imitating? Do we want what we got? If not I say so what Here's my formal invitation Let's go, let's go masquerading We'll make it fun When it's over and done I still want you to see the real me

No more disguises

Let true love decide if we should be together
Here's my formal invitation
You and me go masquerading
Lose ourselves in this charading
Is this love we're imitating?

Do we want what we got?

If not I say so what
Here's my formal invitation
Let's go, let's go masquerading
La, la, la, la, la, la, la
La, la, la, la, la, la, la
