

# Flaunt It

## Les Mills International

[Chorus]If you've got it  
    Then flaunt it  
    If you've got it  
Show it off show the world  
    You've got it  
    Then flaunt it  
    If you've got it  
Show it off show the world  
[Verse 1]I don't wanna sound fast or rude  
    But the style that you exude  
It makes me want to get close to you  
So go ahead woman and do your thing  
    I love the way that your moving  
    Girl go ahead i can't blame you  
    [Pre-chorus]  
    Show dem how you turn  
    Show dem how you twist  
    Make de dance floor burn  
        Woman i insist  
    Show dem how you wine  
    Show dem how you dance  
        Put dem in a trance  
[Chorus][Verse 2]Your sexiness and beauty  
    Should be made for the world to see  
    So come pretty girl expose it  
    Let others be as fortunate as me  
    Cause i'm sure they will agree  
You've got it let the whole world know it  
    [Pre-chorus][Chorus 3x]
