Love Revolution

Magoon

Fading
We're all fading
From who we've become and who we were meant to be
Dying
We're all dying
And wanna believe its everyone but me
Oh great light of the world help us see

What can save us now
When hands are reaching out
Walls are falling down
It's a love revolution
What can save us now
Raising from the ground
We are crying out
For a love revolution

Searching,
We're searching
For something more divine to set us free
Holding
We're all holding
Everything inside this world needs
Oh great light of the world help us see

What can save us now
When hands are reaching out
Walls are falling down
It's a love revolution

What can save is now
Raising from the ground
We are crying out
For a love revolution

We are called to freedom
We are free to love
And love has come for us
And love will be enough

And love will be enough

What can save us now
When hands are reaching out
Walls are falling
Down Down down
Ohhhh ohhh oh
Hands are reaching out
And walls are falling down
It's a love revolution
Ohhhh ohhh oh
Raising from the ground
We are crying out
For a love revolution
We need a love a revolution
It's a love revolution
We need a love revolution
