

Wish You Were Here

[Kosheen](#)

This injury
Is caused by reckless handling
And causes insecurity
Distance isn't good for me
Memories fall fast and wild And I wish you were here
And I wish you were here Into me, driving the reality
Rolling right up over me
I'm not where I want to be
By your side And I wish you were here
And I wish you were here I wish you were here
I wish I could change
Turn around the time
Rearrange the play Even though you're near, you seem so far away
You seem to disappear from sight and sound
and gone again And I wish you were here
Right here
And I wish you were here
Right here
