

# Eden

## Sara Bareilles

Let me paint a picture for you then I'll have to teach you to see it  
Illustrate the remnants of the life I used to live here in Eden  
Rolled a lucky pair of dice,  
Ended up paradiseâ€”  
Landed on a snake's eyes, took a bite and ended up bleeding You know if I could change anything, I think I  
would start with the name  
The truth is all those angels started acting the sameâ€”  
And I know there's no going back now 'cause  
Life in Eden  
Life in Eden changedâ€”  
No way to make the pain play fairâ€”  
It doesn't disappear just because you say it isn't there  
So when they ask why'd she go you can say 'cause  
Life in Edenâ€”  
Life in Eden changedâ€”  
Life in Eden changed Walking in the garden was a serpent-shaped heart and he told meâ€”  
What is broken cannot show, and less than beautiful is worse than unholy  
Idolized my innocence,  
Stole it from me in the endâ€”  
Now I'm wide awakened and still paying for the poison they sold me You know if I could change anything, I  
think I would start with the name  
The truth is all those angels started acting the sameâ€”  
And I know there's no going back now 'causeâ€”  
Life in Eden  
Life in Eden changedâ€”  
No way to make the pain play fairâ€”  
It doesn't disappear just because you say it isn't there, so  
When they ask why'd she go you can say 'cause  
Life in Edenâ€”  
Life in Eden changedâ€”  
Life in Eden changed There was a time when I was taking all betsâ€” that  
This place was even better than as good as it gets and now  
Looking back from the outside inâ€”  
I think I was choking on the air in Eden  
Choking on the air in Eden Life in Eden changedâ€” You know if I could change anything, I think I would start  
with the name  
The truth is all those angels started acting the sameâ€”  
And I know there's no going back now 'causeâ€”  
Life in Eden

Life in Eden changedâ€™  
No way to make the pain play fair  
It doesn't disappear just because you say it isn't there, so  
When they ask why'd she go you can say 'cause  
Life in Eden  
Life in Eden changedâ€™  
When they ask why'd she go  
'Cause life in Eden  
Life in Eden changedLife in Eden changed  
Life in Eden changed
