

I Believe

Manowar

From the darkness, I walk into the light
From the day, I walk into the night
From the shadows, I will appear
With a message, for all who will hear For the weak of heart, I will be strong
To the defenders of faith, I will belong
To the last of us, fight till we die
Till the keys, of the kingdom, are mine All stand together
For the world to see
Now the time is right
To live out all our dreams
Say the words forever
Your strength will never leave
If you want to win the fight
Say, "I Believe" From the darkness, I walk into the light
From the day, I walk into the night
From the shadows, I will appear
With a message for all, who will hear For the weak of heart, I will be strong
To the defenders of faith, I will belong
To the last of us, fight till we die
Till the keys, of the kingdom, are mine All stand together
For the world to see
Now the time is right
To live out all our dreams
Say the words forever
Your strength will never leave
If you want to win the fight
Say, "I Believe"
