

# No Fool Like An Old Fool

## Buck Owens & His Buckaroos

The first time you hurt me  
I thought I'd die  
The second time it happened  
I cried all night. They say a heart can stand  
Just so much grief and pain  
But a fool in love keeps loving  
They never change. There's no fool like an old fool  
That's loved and lost at least a hundred times  
There's no fool like an old fool  
That keeps on falling for the same old line.  
--- Instrumental --- You call and say you're sorry  
That you let me down  
I take you back  
'Xause you're what makes my world go round. And though I know my chances  
are so very small  
I'd rather have a part of you  
than none at all.  
There's no fool like an old fool  
That's loved and lost at least a hundred times  
There's no fool like an old fool  
That keeps on falling for the same old line...
