

Rain of Blood

Catamenia

(Martti perkele, Saatanan Martti..!)Lords of chaos, rulers of death
In your hands waits the last breatheDominator of the numbers
Show the way, secrets of sixPower of dark will rise above tonight
Living a soulless lifeRain of blood wash us away
Statues of life will never see the day
Mistress of the night seduces the light
Innocent smile provoke to endless suicidePower of dark will rise above tonight
Final global war turn hell into skyNorthern secrets on my side
Living a soulless life
