

# False Hope

Jeff Pearce

You're expecting one well here it comes  
It's all been said it's all been done  
this world will never change  
So I hope it burns down You're expecting one well here it comes  
It's all been said it's all been done  
Well fuck the government, fuck the world  
I hope they all burn down  
I despise the government  
And nothing's getting solved  
You think you're so fucking right  
Well think once for yourself Try all you want  
Nothing's getting solved  
False hope Try all you want  
Nothing's getting solved  
False hope Try all you want  
Nothing's getting solved  
False hope You can can try all you want  
But nothings getting solved Try all you want  
Nothings getting solved  
False hope I have not changed my views  
But every band reports the same news  
So let them tell you punks not dead  
Maybe they can get ahead  
Is that the subject you wanna hear  
Nothing's changed but the years  
Don't wanna repeat someone else's lines  
That's such a waste of time Try all you want  
Nothing's getting solved  
False hope Try all you want  
Nothing's getting solved  
False hope Try all you want  
Nothing's getting solved  
False hope You can can try all you want  
But nothings getting solved Try all you want  
Nothings getting solved  
False hope You can try all you want to  
But nothing's getting solved  
You can try all you want to  
But nothing's getting solved

You can try all you want to  
But nothing's getting solved You can try all you want to  
You can try all you want!!!!!!! Try all you want  
Nothing's getting solved  
False hope Try all you want  
Nothing's getting solved  
False hope Try all you want  
Nothing's getting solved  
False hope You can can try all you want  
But nothings getting solved Try all you want  
Nothings getting solved  
False hope
