

# Vanilla Skies (Ft. Taylor Bennett)

[Kweku Collins](#)

[Intro][Hook: Kweku Collins + Taylor Bennett]

When we trip, don't fall

We just drift

You can't see my thoughts

But I can take you there

Vanilla skies in Heaven

Where we can fly forever

Won't get lost cause

We're gon' fly together

Vanilla skies forever[Verse 1: Taylor Bennett]

Vanilla skies forever

How could you despise the weather?

Have you landed?

You and I know better

Never never land

Don't settle

For a falling heart, kid

Play your part, pimp

These girls are smart, ish

Play your part, pimp

Play your part like you aren't offered art a lot

By artists trying to make you more perfecto

But what an angel feet that God has crafted me

If I can only buy stilettos

Vanilla skies in heaven

Where we could fly forever

Won't get lost cause

We're gon' fly together

Vanilla skies forever[Hook: Kweku Collins + Taylor Bennett]

When we trip, don't fall

We just drift

You can't see my thoughts

But I can take you there

Vanilla skies in Heaven

Where we can fly forever

Won't get lost cause

We're gon' fly together

Vanilla skies forever[Verse 2: Kweku Collins]

Scribble scripts

And play the part you've always wanted  
Simple Christmas lists  
Hey this is all I wanted  
Won't you drift away?  
But you should keep my number  
We some falling hearted  
Private pimps in public  
Jumbo-tron type of love, baby  
You belong to fire, baby girl  
You belong in higher ratings  
But you and I know my nerve crazy  
In the eye of a storm  
You're the only belief that I have found safety  
In the night I reform  
To the norm that you and I have created  
And so i typed a text  
To someone that I loved  
Thumb hung over send  
But something told me "nah  
Settle when it's time  
Catch your falling heart"[Hook: Kweku Collins + Taylor Bennett]  
When we trip, don't fall  
We just drift  
You can't see my thoughts  
But I can take you there  
Vanilla skies in Heaven  
Where we can fly forever  
Won't get lost cause  
We're gon' fly together  
Vanilla skies forever
