

White Christmas Blue

[Loretta Lynn](#)

It's Christmas Eve and I'm still all alone
It'll be Christmas day when you come home
Icicles hanging from the eaves, snow is glistenin' from the trees
My Christmas time with you is over due
You turn into my white Christmas blue
You turn into my white Christmas blue
I should be saying ho ho ho instead of bu bu bu
Oh Santa Claus would no want you to break my heart in two
You turn into my white Christmas blue
The kids are all sleep all tuck in and Dreaming of old Santa Claus tonight
Reindeer pulling his big ol' sleigh
Rudolph's red nose leads the way
That stockin' full of hurt for you-know-who
You turn into my white Christmas blue
You turn into my white Christmas blue
I should be saying ho ho ho instead of bu bu bu Oh Santa Claus would no want you to break my heart in two
You turn into my white Christmas blue
Well I been wrapin' presents and I been missing you
You turn into my white Christmas blue
