So Nice

Natural Vibrations

[Chorus]
Oooh yea, Its so nice
That you have come to see
It's so nice
between the you and me love
It's alright
I hope we never go
It's alright
I'm bout to win your heart

Well ask me things you wanna know
Show me places you wanna go
Now tell me things you wanna hear like "i love you" "i miss you my dear"
Oh there aint nothin i wont do
A two will try and get next to you
Cuz if you're feelin like i'm feelin then love will find us together

[Chorus]
Its so nice
That you're welcome to see
its so nice
Between the you and me love
Its alright
I hope we never go
It's alright
I'm bout to win your heart

Now there are so much things to say
And not enough hours in the day
Because i wanna be with you
But your love can be so cruel
Oh there ain't nothin' I wont do
A two will try and get next to you
Cuz if you feelin like i feelin then love will find us together

[Chorus]
Its so nice
That you're welcome to see
its so nice
Between the you and me love

Its alright
I hope we never go
It's alright
Im bout to win your heart

So come on
Oh im in love baby with you over youuuu over youuu
Well as for things you wanna know
Show me places you wanna go
Now tell me things you wanna hear like "i love you" "i miss you my dear"
Oh there aint nothin i wont do
A two will try and get next to you
Cuz if you feelin like i feelin then love will find us together

[Chorus]
Its so nice
That you have come to see
its so nice
between the you and me love
its alright
i hope we never go
its alright
im bout to win your heart

Its so nice
When im in love with you baby
Its so nice
with you only you only you
Its so nice
If love could last forever
Its so nice
With you only you only you
It's soooo niceee
