

# Never Know

## The Noises 10

You, left with suitcase in hand, unplanned, you know  
That you, should have left me a note, so I'd understand  
    Maybe I'm wrong, maybe I'm right  
    But it's at this point you should start to cry  
    Coz if you start to think about it you'd know  
    You left behind something so strong  
    But you never gave us time to belong  
    The feeling was right but it's come and gone  
    And all this time alone has left me thinking  
    That I, I don't need you  
    BUt you'll never know.....

You, gave no forward address, I'm impressed, and I'm sure  
That you, you left with your bitterness, I suggest, insecure  
    You should have stayed to give us more time  
    You should have said just what was on your mind  
    Coz if you'd stopped and thought about it you'd know  
    You left behind something so strong  
    But you never gave us time to belong  
    The feeling was right but it's come and gone  
    And all this time alone has left me thinking  
    That I, I don't need you

I guess if you'd have thought about it you'd know  
    I bet your lying in your bed on your own  
Can't you see you're tired of all your complications  
    Trying to fight with your frustrations  
    All alone with your heart of stone  
    You left behind something so strong  
    But you never gave us time to belong  
    The feeling was right but it's come and gone  
    And all this time alone has left me thinking  
    That I, I don't need you  
    You left behind something so strong  
    But you never gave us time to belong  
    The feeling was right but it's come and gone  
    And all this time alone has left me thinking  
    That I, I don't need you  
    But you'll never know

You left with suitcase in hand, unplanned, you know
