

With You (feat. Kina Grannis)

I Fight Dragons

You say look outside
Rain is pouring down
Let's stay and hide
I say what the hell
We've got things to do
We might as well stay and rebel Maybe we will be everything we say
Maybe all that we dream will fade to grey
Either way, I will stay
With you They say pay your bills
Earn your daily bread
Take all your pills
We say look around
At the heart of things
Share what you've found
Stand your ground Maybe we will be everything we say
Maybe all that we dream will fade to grey
Either way, I will stay
With you, with you
